EDUCATION

New York Institute of Technology (NYIT) , New York, NY	May 2026
Master of Science in Computer Science GPA 4.0/4.0	
Bachelor of Science in Computer Science GPA 3.98/4.0	December 2025
American Academy of Dramatic Arts , New York, NY	May 2021
Associate of Occupational Studies in Performing Arts	

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, C, C++, HTML/CSS, SQL
Concepts	Object-Oriented Programming (OOP), Data Structures, Algorithms
Technologies	React, React Native, Vite, Supabase, PostgreSQL, MongoDB, Git/GitHub, Cloudflare
Tools	Unreal Engine, VS Code, Figma, Arduino IDE, Adobe Suite, Rhino3D, AutoCAD

EXPERIENCE

Triumph Auto Company , Dallas, Texas	June – August 2026
<i>Software Engineer Intern</i>	
- Built a responsive React/Vite company website, translating business requirements into production features. - Researched vehicle diagnostics and embedded systems to evaluate software applications for automotive systems.	
Research Assistant , NYIT, New York, NY	March – May 2026
- Prototyped a VR training environment in Unreal Engine using 360° footage captured with a GoPro Fusion. - Investigated VR training and energy-auditing workflows, authoring a technical paper on the proposed system.	
Teaching Assistant , NYIT, New York, NY	February – May 2026
- Supported two undergraduate courses: <i>CSCI 235: Elements of Discrete Structures</i> and <i>CSCI 260: Data Structures</i>. - Evaluated and proctored quizzes and examinations to provide assessment support for two CS faculty members.	
VOYA Summer Maker Academy , NYIT	July – August 2025
<i>Student Coach</i>	
Guided students in coding, soldering, 3D printing and laser cutting as they constructed functional water-transport robots.	
Blinkers Ltd , Abuja, Nigeria	June – October 2023
<i>Software Engineer</i>	
- Automated recurring bookkeeping processes, reducing manual administrative work by 5+ hours monthly. - Led a market and feasibility study for a proposed business venture, synthesizing research into a comprehensive report.	

PROJECTS

Digital Business Card Platform React, Vite, JavaScript, Cloudflare, Adobe Photoshop
Engineered reusable digital cards with QR access, contact saving, and wallet integration.
Moodify – Music Streaming Platform Extension Python, JavaScript, HTML/CSS, Figma
Implemented advanced search and personalized recommendations to improve music discovery beyond regular browsing.
Rooted in Water – Sustainable Agricultural Platform React, PostgreSQL, Python, Figma
Designed a platform for sharing sustainable agriculture data, research, and experiences.

PUBLICATION AND LEADERSHIP

Published Research | “*Framing the Future: How AI’s Media Representation is Redefining the Entertainment Industry*”, Butler Journal of Undergraduate Research, May 2025

Leadership | Society of Women Engineers NYIT, *President* (2023-25), Undergraduate Research and Entrepreneurship Program, *Team Lead* (2023-25), BUDS International Student Mentorship Program NYIT, *Mentor Manager* (2023-24)

Honors | Undergraduate CS Dean’s Award (2026), Student Leadership Award (2025), NYIT Hackathon Winner (2024) & Host/Coach (2025), Dean’s Recognition Scholarship (2024), Presidential Honors List (2023-26), Transfer Achievement Award (2023)
